

Directions: Print and laminate this visual, then place it near entry to classroom. A second copy on the cubbies is helpful too!. Use the pictures to support your verbal directions by pointing to each step as you say it (e.g., “Turn in folder”). Ask simple questions such as, “*What’s next?*” to encourage students to point, name, or demonstrate the next step. A second option is to laminate each picture individually with velcro on the back and allow students to remove and place in a laminated envelope to help focus on what has been completed and what is next.

The goal is to help every child learn the routine so well that they can complete all the steps **independently** over time!
